TREATMENT PRE-AUTHORISATION/GUARANTEE

Certain treatments and costs require Pre-Authorisation and submission of a Treatment Guarantee Form in advance. Following approval by Think Insurtech & Henner TPA, cover for these required treatments or costs can then be guaranteed.

If Pre-Authorisation is not obtained for the benefits listed below, we reserve the right to decline a claim. We should be contacted at least five working days before receiving treatment, so that we can ensure that there will be no delays at the time of admission. This will ensure that members benefit from cashless access to hospitals for in-patient treatment, where possible, and have their treatment overseen by our team of medical professionals.

In the case of an emergency, we should be informed within 48 hours of the event to ensure that no Pre-Authorisation penalty will apply to the claim. If the respective treatment is subsequently proven to be medically necessary, we will pay only 80% of the eligible benefits.

These benefits are listed below, along with further important details:
